

LOUDSPEAKERS & AMPLIFIERS

- (3x) the box PA 18 ECO MKII (subwoofer)
- (9x) RCF HDL 20-A (line array + front fill)
- (3x) dB Technologies LVX P12 (monitors)
- (2x) QSC GX5 (amplifiers)

dB Technologies LVX P12	
CONNECTORS	1x COMBOJACK (female XLR or Jack TRS da 6.3 mm) 1x MALE XLR 1x POWERCON 1x POWERCON LINK
POWER	700 WRMS - 1400 WPEAK
FREQ RANGE	55 Hz ~ 20 KHz
DIMENSIONS	294 x 705 x 445mm
WEIGHT	29 Kg

RCF HDL 20-A	
CONNECTORS	1x COMBOJACK (female XLR or Jack TRS da 6.3 mm) 1x MALE XLR 1x POWERCON 1x POWERCON LINK
POWER	700 WRMS - 1400 WPEAK
FREQ RANGE	55 Hz ~ 20 KHz
DIMENSIONS	294 x 705 x 445mm
WEIGHT	29 Kg

QSC GX5	
CONNECTORS	Inputs: XLR, 1/4-inch TRS and phono input connectors for compatibility with any source  2x FEMALE BALANCED XLR  2X SPEAKON  1X AC INLET
POWER - 1	500 W @ 8Ω
POWER - 2	700 W @ 4Ω
DIMENSIONS	89 × 483 × 257 mm
WEIGHT	12.6 Kg

the box PA 18 ECO MKII	
CONNECTORS	 3X SPEAKON
OHM	8 Ω
POWER	425 WRMS - 1700 WPEAK
FREQ RANGE	40 Hz ~ 250 Hz
DIMENSIONS	600 x 650 x 650 mm
WEIGHT	41 Kg

LOUDSPEAKER SIGNAL CABLES

- (6x) speakon (3x for subwoofers, 3x for monitors)
- (6x) short XLR (for line array & front fill)
- (7x) long XLR (3x line array, 4x amplifiers)

Recommended installation: 3x unities on stage for each group of musicians

Recommended cable configuration: 2 unities are connected to the amplifier, 1 unity is linked.

Recommended installation: 3x unities in line array left, 3x unities in line array right, 3x unities as front fill

Recommended cable configuration: 3 unities are connected to power and receive XLR signal from console, the others use power link and XLR link

Recommended installation: 2x unities in the audio rack on stage

Recommended cable configuration: 1 unity is connected to the monitors (dB Technologies LVX P12), 1 unity to the subwoofers (PA 18 ECO MKII).

Recommended installation: 3x unities below stage

Recommended cable configuration: connect 2 unities to QSC GX5 amplifier (1 per channel), and link 1 with daisy chaining (use THRU port)
